About This Game

Sokoban Land DX is a 2D top-down puzzle game with colorful graphics and relaxing soundtrack, based on the classic Sokoban style games with some new improvements over the original and a few adventure elements.

You'll need to push boxes to the right places to open the gate and go to the next level. You'll be able to play in single-player mode controlling 1 or 2 characters at same time, or in local co-op mode with a friend changing modes on the fly during levels the way you prefer. Each player can undo their last move, but if you get stuck, you can restart the level whenever you want and there isn't limited movements or timers, so you can do all at your own pace.

Wodewose

wodewose appearing from any tree in its home forest.

Strength Loss (Su): Any creature subject to a wodewose's rend attack must succeed on a DC 24 Fortitude save or take 1d6 points of Strength damage. The save DC is Strength-based and includes the bonus from the feat Ability Focus.

Wodewoses are around 9 feet to 10 feet tall but tend to hunch down, somewhat like apes. They are covered in green grass-like and leaf-like hair, and thick greenish-brown, bark-like skin. Wodewoses are primal defenders of the forest, although they spend most of their lives hidden deep within the woodland and are seen only rarely. They favor sacred groves as homes but can be found in any forest. Although wodewoses cannot speak, they are highly empathic and can easily understand the feelings and attitudes of other creatures that attempt to communicate with them.

Wodewoses are relatively peaceful creatures and will not attack without warning. A wodewose whose home forest is being damaged, or even severely disturbed, will first attempt to intimidate the intruders with a great howl and a display of its monstrous claws. If the intruders do not immediately apologize and begin to leave the forest, the wodewose will become angered. An angered wodewose will attack the largest or strongest-looking opponent, striking it with both claws and attempting to get a good grip on it to simply rip it in two.

If you like the D's, here you can have a lot of them straight in your face.. I can look past a lot in an adventure game, but nothing was able to hold my attention in this one.. This game is a good bit of fun and they lone developer is actively fixing issues and adding content. I would recommend this to any rpg fan who wants something familiar but different. I have a feeling this will be one of those games I come back to play again every two months ti check out the new content.. Great classic locomotive.

It doesn't have cab light and advance functionality, but this locomotive is a great one for the Woodhead route and can also be used on the SDJR. Really fit nicely in and a powerful locomotive for its size.. This is a fun\/kind of quirky app. It's super easy to design and then print what you've made. Think of what Microsoft Paint is for 2D - this is for 3D....and a lot more fun to use.. You would think that this game sucks. It is not worth to play it, but you are wrong. This game is awesome, he got a very well builded story, nice shaped characters and a background music very nice. Highly recommend this game. Is fat better than the first one <3 Gotta love it.

this is an awful mod there are no seleucids no ptolomic empire or antagonids after alexander dies there is only 4or5 factions you can only play as macedon in the campain there is no rome or anything
. My go to party game. Highly recommended for anyone.

11/21/18: Still my best drunk go to part game.. If you are a type of person who wants to interact with objects, etc. Then this game is not for you. Super boring game and a waste of your time. 1/10. Ok Gotta say if you are a fan of retro style games this will be in your wheelhouse of press the buy button. Its forward and to the point, but doesn't hold your hand either. Just like those games back in the day. Very remenicent of Dragon warrior. But one of the best things is the Dev is constantly checking his bug thread and communicates and tries to get those bugs swatted with furious vigor.. If i could sum this game up in one word it would have to be "Insane", even in the early alpha this game had me on my toes every second, the monsters are huge and you are this little guy acting like braveheart in space. From start to finish, this is a beautiful and inspiring game you simply can't miss, the chance to fight monsters and be a god of the stars, to win the competition and go down in history, it's every mans dream.. every REAL mans dream! Buckle up and blast off, adventure awaits! (some monsters too). It looks like it could be a fun game and the theme music is really good, but considering it's been out for just over two months now, there are no other online players than me, and it peaked at 7 players online at the same time (according to Steamcharts), I'd say it's dead and won't come back.
